The screenshot shows a 'Database Search' interface with a search filter panel on the left and a map on the right. The search filter panel includes sections for 'Microscopic', 'Petrographic Category', 'Chemical Element', and 'Technique'. In the 'Microscopic' section, a dropdown menu is open, showing 'Black Sand' selected, with a red box around it and a red number '1' above it. Below the dropdown, the 'Petrographic Category' is set to 'choose one', with a red box around the dropdown arrow and a red number '2' to its left. The map on the right shows the Pacific region with several red location pins labeled with numbers: 11957, 68, 3, and 7534. The map interface includes navigation controls, a map style selector (Map, Satellite, Hybrid, Terrain, Old Map), and coordinate input fields at the bottom.
